Fixed Issues

2858	Internet Order Format #2	Fixed the issue where the **Placement** field incorrectly printed line items with different *Package* values in the same order.
3557	Media Order Current Status Report v5	Fixed the issue where dates were missing from some line items when exporting the report to Excel.
3561	Dynamic Reports Dashboard	Fixed the issue where exported Excel sheets contained incorrect totals.
3620	Billing Reports	Fixed the issue where deleted AP invoices incorrectly displayed as duplicate charges on the report.
3650	Internet Order Format #3	Fixed the issue where the logo did not display on Internet Order Format #3.
3779	Finance & Accounting → Accounts Payable Reports → Check Writing Approval Reports	Corrected the issue where vendors were not sorting in pay to code order.
3813	Billing → Reports → Billing	Added Report #13 for Time

	Worksheets Production	and Expenses.
3878	Assignments & Alerts Manager	Resolved the issue with the **Hours** display in the A&AM. The Hours column now prioritizes allocated hours when available for the employee. If allocated hours are unavailable, default hours are displayed instead. If neither allocated nor default hours exist, the **Hours** field remains blank.
3906	-	Fixed the error message *Cannot set Column CableNetworkNielsenTVStationCode* when accepting Makegoods due to their not being a Comscore station.
3941	Broadcast Worksheet	Fixed the issue where monthly summaries incorrectly functioned when date ranges spanned across the end of 2024 and the beginning of 2025.
3942	Comscore TV Book Data	Updated the *Comscore* table with Broadcast calendar dates through 2026, ensuring accurate data display in the Broadcast Research tool and worksheet.
3971	Purchase Orders	Fixed the issue where footer text displayed with incorrect formatting.
4051	Job Type Maintenance	Fixed the issue where changes to job type descriptions, sales classes, and *Active* status incorrectly saved in **Webvantage** and, for some clients, Advantage.
