

## Advantage Release 6.99.00

Release Date: 06/18/2025

### New Feature

There is a new custom roll-forward option in Digital Campaign Manager and Media Manager, allowing you to select an order/line from the same estimate, actualize those lines, and set the amount of plan spend to roll to each subsequent line.

### Fixed Issues

---

3257	Broadcast Invoice Summary	Fixed the issue in the Broadcast Invoice Summary Report where the Scheduled Gross column overstated revenue due to duplicate entries for the same order line in AP.
3904	Finance and Accounting → Reports → Management Reports	Added 05 - <i>Employee Performance - Summary by department, Employee and</i> Added 06 - <i>Employee Performance - Summary by client, No employee detail</i>
4106	Webvantage Calendar	Fixed the issue in the Webvantage calendar availability where tasks without a start date were not displaying allocated hours on their due date.
4476	Media Manager Billing Approval	When Billing Approval exists on media order lines, we added a pop-up to revise orders, update to actual, and write up/down to keep or discard the existing Billing Approval.
